AQUAJETS SWIM TEAM PERFORMANCE-B INFORMATION PACK

Dear parent/swimmer,

The aim of Performance-B is to provide a training environment where athletes can work towards achieving their potential at a County, Regional and National level. This requires swimmers in this squad to approach all aspects of the sport with a high level of commitment, accountability and maturity which will aid them in coping with the physical and psychological demands of training and competition. Performance-B is the second tier of the 3 Performance squads in Aquajets, swimmers across all 3 of these squads are expected to work together in setting the standard and developing a high-performance environment. Swimmers in Performance-B are usually of ages 12 to 15. Please note younger swimmers coming into Performance B must be or due to turn 13 years of age the same season as their admittance into the squad, August-September. Exceptions may be made with all squad allocations being at the discretion of the Head Coach.

Kind regards,

Will Murden
Head Coach

Competition:

In Performance squads meets are separated into 3 categories:

Process, Preparation and Target meets.

Process meets take place 'in season' where swimmers may be tired from a heavy training load, often getting little to no rest going into the meet. The aim of these meets is to assess the conditioning of the swimmers while also practising specific technical or tactical race goals (e.g. achieve a certain number of fly kicks underwater off each turn). While some swimmers may achieve personal best times in these meets it is not the primary focus.

Preparation meets usually take place around 3 weeks before a Target meet. The aim of these meets is to fine tune any technical or tactical elements of a race so a swimmer is as prepared as possible for a Target meet. While some swimmers may achieve personal best times in these meets it is not the primary focus.

Target meets take place at the end of a taper period (a period of training, usually 1-3 weeks long, in which training load is greatly reduced to allow for rest and recovery). The aim of these meets is to execute all the technical and tactical elements of a race that have been worked on over the season, both in training and competition, to achieve the fastest time possible.

AQUAJETS SWIM TEAM PERFORMANCE-B INFORMATION PACK

Please keep in mind younger swimmers in Performance Squads, particularly those in Performance-C, will fit less rigidly into this structure. While still in the early stages of developing their technical and tactical racing skills most of the meets they attend will be with a 'process' meet mindset. Personal best times will come naturally as they mature both physically and emotionally, adapt to training and learn how to execute in a race the skills they have learnt in training.

Below is a rough outline of how a season at Aquajets may look regarding competition. Please bear in mind this outline offers multiple different competitive pathways and swimmers in performance squads would not be expected to compete in all the events listed below. It is very dependent on what higher level competitions swimmers qualify for (Please also note county, regional and national competitions will only be attended if it fits the training program and the wider squad. Swimmers should not expect to be entered into these events just because they qualify. The program will be structured to help swimmers achieve the fastest times possible regardless of what pool it is in or what the competition is called, 'water is water'). Instead of using the overview below as a competition 'calendar' it is intended to give members a greater understanding of how a season is structured and which higher level meets swimmers should be aiming for. At the start of and throughout the season members will be given a much more informative calendar of where and when they can expect swimmers to be competing.

Late August/early September

** British and National Summer Meets take place at the end of July/start of August each season. The Summer Meet program forms part of a swimming competition structure in Great Britain whereby the top ranked swimmers in predefined age categories are invited to compete at the British Swimming Summer Championships. Selection for the competitions is by invitation only with the top 24 top-ranked swimmers in each event in each age category invited to attend the British Summer Championships, except for the 800m and 1500m Freestyle contests, where the top 18 athletes will be invited. The next 22 ranked swimmers at Swim England affiliated clubs, or those who have chosen to be ranked as an English swimmer, are invited to compete at the Swim England Summer Nationals (Scottish and Welsh athletes have their own respective championships). The rankings are on swimmers performances at level 1 meets within a qualification window, typically between March and May of the same calendar year. Further information on these events can be found on the British Swimming or Swim England Websites.*

All meet information will be uploaded here

(<https://www.aquajetsnewcastle.co.uk/calendar/>) on the Aquajets website as soon as it becomes available.

British swimming categorises meets into 4 levels depending on the standard of the meet.

Further explanation on the levels of licensed meets can be found here

(<https://www.swimming.org/sport/licensed-meets/>).

Entries:

An entry sheet will be uploaded to the website containing each swimmers events, the amount due and a payment due date (Please note £1 will be added to the cost of each swim to help cover the coaches expenses). Payment must be made by 5pm on the due date or swimmers will not be entered, any late payments will not be accepted.

Scholarships:

Swimmers who qualify for summer championship events may be eligible for a scholarship over the 12 months following the respective championships (August-July).

Figure 3. The required swimming points for entry into Aquajets Performance squads relative to age on the 31st of December of any given year. The World Aquatics Point Scoring assigns point values to swimming performances. Points allow for comparison of results across different events. Base times (1000 points) are defined every year, based on the latest World Record that was approved by World Aquatics. The base times are defined for all common individual events and relays, separated for men/women and long course/short course. More information on swimming points can be found here (<https://www.fina.org/swimming/points>). An individuals times and swimming points can be found here (<https://www.swimmingresults.org/individualbest/>) by searching by surname or Swim England membership number.

There may be exceptions to the above criteria when the following are concerned.

- Illness
- Injury
- Academic commitments
- Sporting commitments
- Work commitments

AQUAJETS SWIM TEAM PERFORMANCE-B INFORMATION PACK

The exceptions outlined above must be discussed with the squad coach at the earliest opportunity. Members are encouraged to speak to their coach directly and inform them of any of the above in writing.

In addition, the squad coach must be informed at the earliest opportunity, via email, of any holidays or time away from training the swimmer may have. Even small amounts of training missed can have an impact on a swimmers progression, it is important the squad coach knows as soon as possible so they can adapt the program accordingly and limit any regression. Failure to inform the coach in writing could result in a mark down in attendance.
